Message to Students

Dear Students

This is a very new opportunity for all the students in the community who fail to achieve higher education due to various constraints-financial or social. By using this opportunity, the students can boost up their confidence and enter various professional fields with great zeal and enthusiasm which will be a boon to our society.

These courses have been formulated by Buddha Acupressure Yoga College after a thorough research of the community. These Programmes would be very helpful for the students in general and the underprivileged in particular. Since all the Programmes are need-based so there are also various job opportunities waiting for our pass-outs.

Mission :

- Our mission is to develop tomorrow through education based on values and skills
- An education based on ethical (spiritual) values resulting in knowledge and skills
- Read in the name of your lord, who created : created men from clot (of blood). Read! your lord is the most Beautiful one who taught by the pen. Taught man what he did not know.
- "I, residing in the intellect of my devotees, destroy the darkness of ignorance by the resplendent light of knowledge." (Geeta)

Values :

- A culture of continuous improvement and total quality that encourages creativity and innovation
- An international linkage and fraternity that promotes cross cultural learning
- A deep commitment to sustainable development and a peaceful environment
- A human resource strategy that values people and team work and is committed to employee development and training
- A Buddha Acupressure College tends to be highly diverse and encompasses drop-outs (app.63%) to build a strong India.

Keythemes :

- Improving the students experience and knowledge
- Maximum efforts to convert there (students) potential into actual
- Maximizing the learning value add to students from flexible entry to exit
- Proactive employer engagement in the region as well as in the nation
- Preparing students for the gaining real world experience
- To create confidence of being amongst the best through the unique experiential learning with the help of visiting faculties.

DR. PRIYA KUMARI

ACUPRESSURE

Acupressure (From Latin acu + pressure) is an alternative medicine technique similar in principle to acupuncture. It is based on the concept of life energy which flows through "meridians" in the body. In treatment, physical pressure is applied to acupuncture points with the aim of clearing blockages in these meridians. Pressure may be applied by hand, by elbow, or with various devices.

COLOR THERAPY

Color therapy, or chromotherapy, is the method of treating ailments through the use of colour. Color therapy can be done by shining an appropriate color on an area of the body. It can also be done through the eyes by looking at a particular color, though this should be done with the utmost care to avoid any strain on the eyes. It is a complementary therapy, and should not be used as an alternative to professional medical care. Its results vary and cannot be guaranteed.

ACUPUNCTURE

Acupuncture is a form of alternative medicine in which thin needles are inserted into the body. It is a key component of traditional Chinese medicine (TCM). TCM theory and practice are not based upon scientific knowledge, and acupuncture is a pseudoscience.

SUJOK MAGNET THERAPY

Sujok Magnetic therapy, or magnet sujok therapy is a pseudoscientific alternative medicine practice involving the use of static magnetic fields. Practitioners claim that subjecting certain parts of the body to magnetostatic fields produced by permanent magnets has beneficial health effects. These physical and biological claims are unproven and no effects on health or healing have been established.

YOGA

Derived from the Sanskrit word yuj, yoga means union of the individual consciousness or soul with universal consciousness or Spirit. Yoga is a 10000- years old Indian body of knowledge. Though many think of yoga only as a physical exercise where people twist, turn, stretch, and breath in the most complex ways, these are actually only the most superficial aspect of this profound science of unfolding the infinite potentials of the human mind & soul. The science of yoga imbibes the complete essence of the way of life.
